#### NOTE 1 Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The financial statements of American National General Insurance Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Missouri Department of Insurance.

The Missouri Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Missouri for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Missouri Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the state of Missouri. The state has implemented and adopted certain exceptions to the prescribed or permitted accounting practices found in NAIC SAP and the Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices (permitted practice). As of the date of this report, the Company has not implemented any such exceptions, has not requested permission for a permitted practice, nor been directed by the state of Missouri to implement any accounting practice unique to the Company.

B. Debt Restructuring

Not Applicable

C. Reverse Mortgages

Not Applicable

- D. Loan-Backed Securities
  - (1) Prepayment assumptions for mortgage-backed/asset-backed securities were obtained from independent third party pricing services or internal estimates.
  - (2) At September 30, 2020, the Company did not have any securities within the scope of SSAP No 43R with a recognized other-than temporary impairment due to the intent to sell or an inability or lack of intent to retain the security for period of time sufficient to recover the amortized cost basis.
  - (3) At September 30, 2020, the Company did not hold any loan-backed and structured securities with a recognized credit-related OTTI.
  - (4) There are no impaired securities for which an other-than-temporary impairment has not been recognized in earning as realized loss.

- (5) All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether an other-than-temporary impairment should be recognized. As of September 30, 2020, the Company believes it has the intent and ability to hold securities long enough to allow the cost basis of these securities to be recovered. Although the investment securities above did not meet management's criteria for other-than-temporary impairment at this time, it is possible that future events or information could cause them to conclude that declines in value are other-than-temporary.

NOTE 10 Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A.-F.

No Significant Change

G. On July 1, 2020, the upstream indirect parent company, American National Insurance Company, a Texas insurance company ("ANICO"), completed its previously announced holding company reorganization. As a result of such reorganization, ANICO became a wholly owned subsidiary of American National Group, Inc., a Delaware corporation ("ANAT"), and ANAT replaced ANICO as the publicly held company. Consequently, all filings with the Securities and Exchange Commission from July 2, 2020 forward will be filed by ANAT under CIK No. 0001801075.

In addition, the directors and officers of ANICO became directors and officers of ANAT. There is no change in the ultimate ownership of the organization and business operations will continue from our current office locations and companies.

H.-O.

No Significant Change

#### NOTE 11 Debt

A. As of December 31, 2019, the Company had a line of credit established with American National Holdings, Inc. for up to \$3,000,000 to meet short-term liquidity needs. The line of credit matured on June 30, 2020. On July 1, 2020, the Company established a line of credit with American National Insurance Company for up to \$3,000,000, maturing on July 1, 2023, to meet short-term liquidity needs. Interest accrues on a 365 days accrual basis at a variable rate. The variable rate equals the prime rate published by the Wall Street Journal on the first business day of the month.

There were no outstanding borrowings on the lines of credit at September 30, 2020 and December 31, 2019.

The Company has no long-term debt and no other short-term borrowing arrangements.

B. FHLB (Federal Home Loan Bank) Agreements

The Company has no Federal Home Loan Bank agreements.

#### NOTE 20 Fair Value Measurements

Α

(1) Fair Value Measurements at Reporting Date

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value Bonds		\$ 3,616,150			\$ 3,616,150
Total assets at fair value/NAV	\$ -	\$ 3,616,150	\$ -	\$ -	\$ 3,616,150

There were no transfers between Level 1 and Level 2 fair value hierarchies.

- (2) There were no Level 3 securities for the periord ending September 30, 2020.
- (3) Transfers between levels, if any, are recognized at the beginning of the reporting period.
- (4) The market values of equity and debt securities are obtained by the Securities Valuation Office of the NAIC and/or various pricing services. There has been no change in the valuation techniques and related inputs.
- (5) The Company does not own any derivative securities.
- B. Not Applicable

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

							Not
						Net Asset	Practicable
	Aggregate	Admitted				Value	(Carrying
Type of Financial Instrument	Fair Value	Assets	(Level 1)	(Level 2)	(Level 3)	(NAV)	Value)
Bonds	\$ 109,979,983	\$ 103,213,760		\$ 109,979,983			

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability. A fair value hierarchy is used to determine fair value based on a hypothetical transaction at the measurement date from the perspective of a market participant. An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities. The Company defines active markets based on average trading volume for equity securities. The size of the bid/ask spread is used as an indicator of market activity for fixed maturity securities.

Level 2 - Quoted prices in markets that are not active or inputs that are observable directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities other than quoted prices in Level 1; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models and third-party evaluation, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The Company has evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Based on the results of this evaluation and investment class analysis, each price was classified into Level 1, 2, or 3.

There are some equity and fixed income securities whose market price is obtained from the Securities Valuation Office (SVO) of the National Association of Insurance Commissioners. For those securities that are not priced by the SVO, the price is obtained from independent pricing services.

The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, the pricing service uses an Option Adjusted Spread model to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, relevant credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities additional inputs may be necessary.

The Company has reviewed the inputs and methodology used by the pricing service and the techniques applied by the pricing service to produce quotes that represent the fair value of a specific security. The review of the pricing service's methodology confirms the service is utilizing information from organized transactions or a technique that represents a market participant's assumptions. The Company does not adjust quotes received by the pricing service.

The pricing service utilized by the Company has indicated that they will only produce an estimate of fair value if there is objectively verifiable information available. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service, but would have to make assumptions for market-based inputs that are unavailable due to market conditions.

The fair value estimates of most fixed maturity investments including municipal bonds are based on observable market information rather than market quotes. Accordingly, the estimates of fair value for such fixed maturities provided by the pricing service are included in the amount disclosed in Level 2 of the hierarchy.

Additionally, the Company holds a small amount of fixed maturities that have characteristics that make them unsuitable for matrix pricing. For these fixed securities, a quote from a broker (typically a market maker) is obtained. Due to the disclaimers on the quotes that indicate that the price is indicative only, the Company includes these fair value estimates in Level 3. The pricing of certain private placement debt also includes significant non-observable inputs, the internally determined credit rating of the security and an externally provided credit spread, and are classified in Level 3.

#### NOTE 21 Other Items

### A. Unusual or Infrequent Items

On March 11, 2020, the World Health Organization formally declared the outbreak of the novel coronavirus COVID-19 to be a pandemic. The spread of COVID-19 has caused illness, quarantines, cancellation of events and travel, alternative arrangement and shutdown for business and schools, reduction in business activity, widespread unemployment, and overall economic and financial market instability. The wide-ranging social, economic and financial consequences of the COVID-19 pandemic and the possible effects of ongoing and future governmental action in response to COVID-19 compound this uncertainty.

Through the third quarter of 2020, the American National Family of Companies continues to be fully operational with the majority of our employees working remotely. We continue to monitor developments related to the COVID-19 pandemic to assess its impact on our business; however, due to the evolving and highly uncertain nature of this event, it currently is not possible to estimate with reasonable confidence the ultimate direct and indirect impact of COVID-19 on our business, results of operations, financial condition, or liquidity. To date, COVID-19 has impacted us most notable with economic uncertainty and volatility in the financial markets in which we invest and with the diminished ability of certain of our clients and borrowers to make timely payments to us. This has resulted in our taking protective measures to mitigate the impact of COVID-19 on performance and increase liquidity should a need arise.

We are monitoring our liquidity needs closely.

Sales growth in our operating segments was negatively impacted by stay-at-home orders and the increased economic uncertainty caused by COVID-19.

We issued a 15% policy credit for our personal and commercial auto policyholders based on their April and May premiums, which amounted to approximately \$0.9 million. Additionally, we reduced premiums for some of our property and casualty policies by providing credit or exposure adjustments to personal automobile insurance, workers compensation or other commercial policies, in some cases pursuant to regulatory requirements. Loss and loss adjustment expenses in our operating segments included modestly lower loss estimates in certain product lines, primarily personal and commercial automobile due to a decrease in claim frequency as policyholders drove fewer miles. Also, as a result of the impacts of COVID-19, state insurance departments across the country had issued regulations that required us not to cancel policies for non-payment for varying amounts of time but generally for at least 90-day periods which began in March and early April 2020. The cancellation and grace periods have been lifted in most states. At this time, however, our liquidity requirements have been and are expected to continue to be met by funds from operations.

#### NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

Incurred losses and loss adjustment expenses attributable to insured events of prior years have decreased by \$3,352,000 in 2020. This change is the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims and such adjustments are included in current operations.

# SUPPLEMENTAL EXHIBITS AND SCHEDULES INTERROGATORIES

The following supplemental reports are required to be filed as part of your statement filing. However, in the event that your company does not transact the type of business for which the special report must be filed, your response of NO to the specific interrogatory will be accepted in lieu of filing a "NONE" report and a bar code will be printed below. If the supplement is required of your company but is not being filed for whatever reason enter SEE EXPLANATION and provide an explanation following the interrogatory questions.

	_	Response
1.	Will the Trusteed Surplus Statement be filed with the state of domicile and the NAIC with this statement?	NO
2.	Will Supplement A to Schedule T (Medical Professional Liability Supplement) be filed with this statement?	NO
3.	Will the Medicare Part D Coverage Supplement be filed with the state of domicile and the NAIC with this statement?	NO
4.	Will the Director and Officer Insurance Coverage Supplement be filed with the state of domicile and the NAIC with this statement?	NO
	Explanations:	
1.		
2.		
3.		
4.		
	Bar Codes:	
1.	Trusteed Surplus Statement [Document Identifier 490]	
2.	Supplement A to Schedule T [Document Identifier 455]	
3.	Medicare Part D Coverage Supplement [Document Identifier 365]	
4.	Director and Officer Supplement [Document Identifier 505]
