#### NOTE 1 Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The financial statements of Garden State Life Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the State of Texas Department of Insurance.

The Texas Department of Insurance recognizes only statutory accounting practices prescribed by the State of Texas for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Texas insurance law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Texas. The State may adopt certain prescribed accounting practices that differ from those found in NAIC SAP.

#### B. Use of Estimates in the Preparation of the Financial Statements

No significant change.

#### C. Accounting Policy

- (1) No significant change.
- (2) Bonds not backed by other loans, with the NAIC rating of 6, stated at the lower of amortized cost or SVO market value; all other NAIC ratings at amortized cost using the interest method.
- (3) (5) No significant change.
- (6) Loan-backed securities are carried at amortized cost using the retrospective method including anticipated prepayments at the date of purchase, except for those with a NAIC designation of 6, which are stated at lower of amortized cost or fair value.
- (7) (13) No significant change

#### D. Going Concern

Based upon its evaluation of relevant conditions and events, management did not have substantial doubt about the Company's ability to continue as a going concern as of March 31, 2021.

#### NOTE 2 Accounting Changes and Corrections of Errors

No significant change.

#### NOTE 3 Business Combinations and Goodwill

No significant change.

#### NOTE 4 Discontinued Operations

No significant change.

#### NOTE 5 Investments

#### A. Mortgage Loans, including Mezzanine Real Estate Loans

The Company has no investments in mortgage loans.

#### B. Debt Restructuring

The Company is not a creditor for any restructured debt.

#### C. Reverse Mortgages

The Company had no investments in reverse mortgages.

#### D. Loan-Backed Securities

- (1) Prepayment assumptions for mortgage-backed/assets-backed securities were obtained from independent third party pricing services or internal estimates.
- (2) At March 31, 2021, the Company did not have any securities within the scope of SSAP 43R, Revised Statutory Accounting for Loan-backed and Structured Securities, with a recognized other-than-temporary impairment due to the intent to sell or an inability or lack of intent to retain the security for period of time sufficient to recover the amortized cost basis.
- (3) At March 31, 2021, the Company did not hold any loan-backed securities with a recognized credit-related other-than-temporary impairment.

- (4) Unrealized loss fair value information: Not Applicable
- (5) All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether an-other-than-temporary impairment should be recognized. As of March 31, 2021, the Company believes it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. Although the investment securities above did not meet management's criteria for other-than-temporary at this time, it is possible that future events or information could cause them to conclude that declines in value are other-than-temporary.

#### NOTE 20 Fair Value Measurements

- A. Fair Value Measurements at Reporting Date
  - (1) The company had no assets or liabilities reported as fair value as of March 31, 2021. There were no transfers between Level 1 and Level 2 fair value hierarchies.
  - (2) The Company had no Level 3 investments reported at fair value as of March 31, 2021.
  - (3) Transfers between levels, if any, are recognized at the end of the reporting period.
  - (4) As of March 31, 2021, the Company did not report any investments at fair value in Level 2 or Level 3. The market values held as equity securities and fixed income securities are obtained from various pricing services. There has been no change in the valuation techniques and related inputs.
  - (5) Not applicable
- B. Not applicable.
- C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds	\$ 131,112,253	\$ 124,217,220		\$ 131,112,253			
Policy loans	\$ 2,679,726	\$ 2,679,726			\$ 2,679,726		

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability. In accordance with SSAP 100, a fair value hierarchy is used to determine fair value based on a hypothetical transaction at the measurement date from the perspective of a market participant. An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities. The Company defines active markets based on average trading volume for equity securities. The size of the bid/ask spread is used as an indicator of market activity for fixed maturity securities.

Level 2 - Quoted prices in markets that are not active or inputs that are observable directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities other than quoted prices in Level 1; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models and third-party evaluation, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The Company has evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Based on the results of this evaluation and investment class analysis, each price was classified into Level 1, 2, or 3.

The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, an option adjusted spread model is used to develop prepayment and interest rate scenarios.

Equity and fixed income securities are priced by independent pricing services. The pricing service evaluates each asset class based on relevant market information, credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities additional inputs may be necessary.

The Company has reviewed the inputs and methodology used and the techniques applied by the pricing service to produce quotes that represent the fair value of a specific security. The review confirms that the pricing service is utilizing information from observable transactions or a technique that represents a market participant's assumptions. The Company does not adjust quotes received by the pricing service.

The pricing service utilized by the Company has indicated that they will only produce an estimate of fair value if there is objectively verifiable information available. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service, but would have to make assumptions for market-based inputs that are unavailable due to market conditions.

The estimates of fair value for most fixed maturity investments, including municipal bonds, provided by the pricing service are disclosed as Level 2 measurements as the estimates are based on observable market information rather than market quotes.

The Company can hold a small amount of private placement debt and fixed maturity securities that have characteristics that make them unsuitable for matrix pricing. For these securities, a quote from a broker (typically a market maker) is obtained. Due to the disclaimers on the quotes that indicate that the price is indicative only, the Company includes these fair value estimates in Level 3.

The carrying value of policy loans is the outstanding balance plus any accrued interest. Due to the collateralized nature of policy loans such that they cannot be separated from the policy contracts, the unpredictable timing of repayments and the fact that settlement is at outstanding value, the Company believes the carrying value of policy loans approximates fair value. Policy loans are classified as Level 3 investments.

The Company holds no other investments subject to SSAP 100 - Fair Value.

#### D. Not Practicable to Estimate Fair Value

As of March 31, 2021, there were no financial insruments for which it is not practicable for the Company to estimate fair value.

#### Investments measured using Net Asset Value

The Company had no investments measured using net asset value.

#### NOTE 21 Other Items

#### A. Unusual or Infrequent Items

We cannot predict the level of disruption that will occur should the COVID-19 pandemic and its related macroeconomic risks continue for an extended period of time. Given this uncertainty, we are unable to quantify with reasonable confidence the expected impact of the COVID-19 pandemic on our future operations, financial condition, liquidity and results of operations. The wide-ranging social, economic and financial consequences of the COVID-19 pandemic and the possible effects of ongoing and future governmental action in response to COVID-19 compound this uncertainty. We are monitoring our liquidity needs closely.

Also, as a result of the impacts of COVID-19, state insurance departments across the country had issued regulations that required us not to cancel policies for non-payment for varying amounts of time but generally for at least 90-day periods which began in March and early April 2020. The cancellation and grace periods have been lifted in most states.

At this time, our liquidity requirements have been and are expected to continue to be met by funds from operations.

#### B. Troubled Debt Restructuring: Debtors

No significant change.

#### C. Other Disclosures

No significant change.

#### NOTE 22 Events Subsequent

#### NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination

The Company had no retrospectively rated contracts or contracts subject to redetermination.

#### NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

Claim liabilities and reserves as of December 31, 2020 were \$2.5 million. As of March 31, 2021, \$(0.3) million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Claims liabilities and reserves remaining as of March 31, 2021 are now \$2.0 million as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been \$0.8 million of favorable prior-year development from December 31, 2020 to March 31, 2021. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.

#### NOTE 26 Intercompany Pooling Arrangements

The Company had no intercompany pooling arrangements.

#### NOTE 27 Structured Settlements
