NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Standard Life and Accident Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the State of Texas Department of Insurance.

The Texas Department of Insurance recognizes only statutory accounting practices prescribed by the State of Texas for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Texas insurance law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Texas. The State may adopt certain prescribed accounting practices that differ from those found in NAIC SAP.

B. Use of Estimates in the Preparation of the Financial Statements

No significant change.

C. Accounting Policy

(1) No significant change.

(2) Bonds not backed by other loans, with the NAIC rating of 6, are carried at the lower of amortized cost or SVO market value; all other NAIC ratings are carried at amortized cost using the interest method.

(3) - (5) No significant change.

(6) Loan-backed securities are carried at amortized cost using the retrospective method including anticipated prepayments at the date of purchase, except for those with a NAIC designation of 6, which are stated at lower of amortized cost or fair value.

(7) - (13) No significant change.

D. Going Concern

Based upon its evaluation of relevant conditions and events, management did not have substantial doubt about the Company's ability to continue as a going concern as of June 30, 2020.

NOTE 2 Accounting Changes and Corrections of Errors

The Company had the following accounting change as of June 30, 2020.

INT 20-03, Troubled Debt Restructuring Due to COVID-19, was issued on April 15, 2020 by the NAIC's Statutory Accounting Principles Working Group. This interpretation clarifies that a modification of mortgage loan or bank loan terms in response to novel coronavirus disease (COVID-19) shall follow the provisions detailed in the April 7, 2020 "Interagency Statement on Loan Modifications and Reporting for Financial Institutions Working with Customers Affected by the Coronavirus", and the provisions of the Coronavirus Aid, Relief and Economic Security Act (CARES Act) in determining whether the modification shall be reported as a troubled debt restructuring within SSAP No. 36, Troubled Debt Restructuring.

Standard Life and Accident Insurance Company has elected to apply the guidance of this interpretation in the second quarter for COVID-19 related commercial loan modifications that would otherwise have been subject to the troubled debt restructuring guidance noted above. The interpretation is only applicable for the term of the loan modification, but solely with respect to any modification, including a forbearance arrangement, interest rate modification, a repayment plan, and other similar arrangement that defers or delays the payment of principal or interest for a loan that was not more than 30 days past due as of December 31, 2019.

This interpretation will only be applicable for the period beginning on March 1, 2020 and ending on the earlier of December 31, 2020, or the date that is 60 days after the date on which the national emergency concerning the COVID-19 outbreak declared by the President on March 13, 2020 under the National Emergencies Act (50 U.S.C. 1601 et seq.) terminates.

NOTE 3 Business Combinations and Goodwill

No significant change.

NOTE 4 Discontinued Operations

No significant change.

NOTE 5 Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans

No significant change.

B. Debt Restructuring

NOTES TO FINANCIAL STATEMENTS

The Company is not a creditor for any restructured debt.

C. Reverse Mortgages

The Company had no investments in reverse mortgages.

D. Loan-Backed Securities

- (1) Prepayment assumptions for mortgage-backed/assets-backed securities were obtained from independent third party pricing services or internal estimates.
- (2) At June 30, 2020, the Company did not have any securities within the scope of SSAP 43R, Revised Statutory Accounting for Loan-backed and Structured Securities, with a recognized other-than-temporary impairment due to the intent to sell or an inability or lack of intent to retain the security for period of time sufficient to recover the amortized cost basis.
- (3) At June 30, 2020, the Company did not hold any loan-backed securities with a recognized credit-related other-than-temporary impairment.
- (4) Unrealized loss fair value information: Not Applicable
- (5) All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether an-other-than-temporary impairment should be recognized. As of June 30, 2020, the Company believes it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. Although the investment securities above did not meet management’s criteria for other-than-temporary at this time, it is possible that future events or information could cause them to conclude that declines in value are other-than-temporary.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

The Company had no repurchase agreements or securities lending transactions.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

NOTE 20 Fair Value Measurements

- A. Fair Value Measurements at Reporting Date

(1) Fair Value assets

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value					
Common Stock-unaffiliated	\$ 71,139,647				\$ 71,139,647
Total assets at fair value/NAV	\$ 71,139,647				\$ 71,139,647

(2) The Company had no Level 3 investments reported at fair value as of June 30, 2020.

(3) Transfers between levels, if any, are recognized at the end of the reporting period.

(4) As of June 30, 2020, the Company did not report any investments at fair value in Level 2 or Level 3. The market values held as equity securities and fixed income securities are obtained by the Securities Valuation Office (SVO) of the National Association of Insurance Commissioners and/or various pricing services. There has been no change in the valuation techniques and related inputs.

(5) Not applicable.
- B. Not applicable.

NOTES TO FINANCIAL STATEMENTS

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds	\$ 368,064,337	\$ 351,128,547		\$ 368,064,337			
Common Stock-unaffiliated	\$ 71,139,647	\$ 71,139,647	\$ 71,139,647				
Mortgage Loans	\$ 19,026,208	\$ 20,472,901			\$ 19,026,208		

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability. In accordance with SSAP 100, a fair value hierarchy is used to determine fair value based on a hypothetical transaction at the measurement date from the perspective of a market participant. An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities. The Company defines active markets based on average trading volume for equity securities. The size of the bid/ask spread is used as an indicator of market activity for fixed maturity securities.

Level 2 - Quoted prices in markets that are not active or inputs that are observable directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities other than quoted prices in Level 1; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models and third-party evaluation, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The Company has evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Based on the results of this evaluation and investment class analysis, each price was classified into Level 1, 2, or 3.

There are some equity and fixed income securities whose market price is obtained from the Securities Valuation Office (SVO) of the National Association of Insurance Commissioners. The price origin, classification and NAIC Designation files in the Automated Valuation Service+ (AVS) security records are utilized to determine the fair value hierarchy levels. For those securities that are not priced by the SVO, the price is obtained from independent pricing services.

The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, the pricing service uses an Option Adjusted Spread model to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, relevant credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities additional inputs may be necessary.

The Company has reviewed the inputs and methodology used by the pricing service and the techniques applied by the pricing service to produce quotes that represent the fair value of a specific security. The review of the pricing service's methodology confirms the service is utilizing information from organized transactions or a technique that represents a market participant's assumptions. The Company does not adjust quotes received by the pricing service.

The pricing service utilized by the Company has indicated that they will only produce an estimate of fair value if there is objectively verifiable information available. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service, but would have to make assumptions for market-based inputs that are unavailable due to market conditions.

The fair value estimates of most fixed maturity investments including municipal bonds are based on observable market information rather than market quotes. Accordingly, the estimates of fair value for such fixed maturities provided by the pricing service are included in the amount disclosed in Level 2 of the hierarchy.

Additionally, the Company can hold a small amount of fixed maturities that have characteristics that make them unsuitable for matrix pricing. For these fixed securities, a quote from a broker (typically a market maker) is obtained. Due to the disclaimers on the quotes that indicate that the price is indicative only, the Company includes these fair value estimates in Level 3. The pricing of certain private placement debt also includes significant non-observable inputs, the internally determined credit rating of the security and an externally provided credit spread, and are classified in Level 3.

For public common stocks, the Company receives prices from a nationally recognized pricing service that are based on observable market transactions and these securities are disclosed in Level 1.

The Company holds no other investments subject to SSAP 100 – Fair Value.

The fair value of mortgage loans is estimated using discounted cash flow analysis. Fair value is calculated on a loan by loan basis by applying a discount rate to expected cash flows from future installment and balloon payments. The discount rate takes into account general market trends and specific credit risk trends for the individual loan. Factors used to arrive at the discount rate include inputs from spreads based on U.S. Treasury notes and the loan's credit rating, region, property type, lien number, payment type and current status. Mortgage loans are classified as Level 3 investments.

D. Not Practicable to Estimate Fair Value

As of June 30, 2020, there were no financial instruments for which it is not practicable for the Company to estimate fair value.

E. Investments measured using Net Asset Value

The Company had no investments measured using net asset value.

NOTE 21 Other Items

A. Unusual or Infrequent Items

On March 11, 2020, the World Health Organization formally declared the outbreak of the novel coronavirus COVID-19 to be a pandemic. The spread of COVID-19 has caused illness, quarantines, cancellation of events and travel, business and school shutdowns, reduction in business activity, widespread unemployment, and overall economic and financial market instability. The wide-ranging social, economic and financial consequences of the COVID-19 pandemic and the possible effects of ongoing and future governmental action in response to COVID-19 compound this uncertainty.

NOTES TO FINANCIAL STATEMENTS

Through the second quarter of 2020, the American National Family of Companies continues to be fully operational with the majority of employees working remotely. We continue to monitor developments related to the COVID-19 pandemic to assess its impact on our business; however, due to the evolving and highly uncertain nature of this event, it currently is not possible to estimate with reasonable confidence the ultimate direct and indirect impact of COVID-19 on our business, results of operations, financial condition, or liquidity. To date, COVID-19 has impacted us most notable with economic uncertainty and volatility in the financial markets in which we invest and with the diminished ability of certain of our clients and borrowers to make timely payments to us. This has resulted in our taking protective measures to mitigate the impact of COVID-19 on performance and increase liquidity should a need arise.

We are monitoring our liquidity needs closely. In the second quarter of 2020, ANICO, and affiliates, deferred salary merit increases.

As a result of the economic disruption caused by COVID-19, we expect to modify a mortgage loan with an outstanding balance of \$2.5 million. This modification related to retail operations. The terms of the modification of this loan includes forbearance of principal and interest payments for a period of up to six months and provision of interest only payments.

Additionally, as a result of the impacts of COVID-19, state insurance departments across the country had issued regulations that required us not to cancel policies for non-payment for varying amounts of time but generally for at least 90-day periods which began in March and early April 2020. The cancellation and grace periods have been lifted in most states. At this time, however, our liquidity requirements have been and are expected to continue to be met by funds from operations.

B. Troubled Debt Restructuring: Debtors

No significant changes.

C. Other Disclosures

No significant changes.

NOTE 22 Events Subsequent

On July 1, 2020, the upstream indirect parent company, American National Insurance Company (“ANICO”) completed its previously announced holding company reorganization pursuant to the Agreement and Plan of Merger dated February 11, 2020 (the “Reorganization Agreement”), among ANICO, American National Group, Inc., a Delaware corporation (“ANAT”), and AN MergerCo, Inc., a Texas corporation (“MergerCo”). The Reorganization Agreement provided for the merger of American National with and into MergerCo (the “Merger”), with ANICO surviving the Merger as a wholly owned subsidiary of ANAT, and the automatic conversion of each share of the common stock, par value \$1.00 per share, of ANICO issued and outstanding immediately prior to the effective time of the Merger (“ANICO Stock”), into one duly issued, fully paid and non-assessable share of the common stock, par value \$0.01 per share, of ANAT (“ANAT Stock”) (collectively with the other transactions contemplated by the Reorganization Agreement, the “Reorganization”).

As a result of the Reorganization, American National Group, Inc. became the publicly held company under the same ticker symbol “ANAT,” on the NASDAQ exchange, as previously used by American National Insurance Company. The directors and officers of ANICO just prior to the reorganization are now serving as directors and officers of ANAT. There is no change in the ultimate ownership of the organization and business operations will continue from our current office locations and companies. This reorganization will have no effect on our agents or policyholders.

NOTE 23 Reinsurance

No significant change.

NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination

The Company had no retrospectively rated contracts or contracts subject to redetermination.

NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

Claim liabilities and reserves as of December 31, 2019 were \$15.1 million. As of June 30, 2020, \$9.5 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Claims liabilities and reserves remaining as of June 30, 2020 are now \$6.7 million as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been \$1.1 million of unfavorable prior-year development from December 31, 2019 to June 30, 2020. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.

NOTE 26 Intercompany Pooling Arrangements

The Company had no intercompany pooling arrangements.
