NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices  
The financial statements of United Farm Family Insurance Company (the “Company”) are presented on the basis of accounting practices prescribed or permitted by the New York State Department of Financial Services.

The New York State Department of Financial Services recognizes only statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the New York Insurance Law. The National Association of Insurance Commissioners’ (NAIC) Accounting Practices and Procedures Manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of New York.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices or permitted by the State of New York as of June 30, 2020 and December 31, 2019 is shown below:

B. Use of Estimates in the Preparation of the Financial Statements  
No significant change.

C. Accounting Policy

1) No significant change.

2) The Company has no investment in mandatory convertible securities or SVO identified investments. Bonds not backed by other loans, with NAIC ratings of 3-6, are stated at the lower of amortized cost or SVO market value; all other NAIC ratings are stated at amortized cost using the modified scientific method.

3-5) No significant change.

6) Loan-backed securities are stated at amortized cost using the retrospective method.

7-13) No significant change.

D. Going Concern  
  
Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Company’s ability to continue as a going concern.

NOTE 2 Accounting Changes and Corrections of Errors

The Company recognized an increase to its’ current tax liability of \$111,361. The Company also recognized an increase to its’ net deferred tax asset of \$126,000. These changes were made subsequent to the filing of the 2018 Annual Statement and were related to corrections and adjustments to prior year activity. The impact in 2019 is an increase to surplus of \$14,639. These corrections were calculated and recorded in the Company’s 2018 audited financial statements.

NOTE 3 Business Combinations and Goodwill  
No significant change.

NOTE 4 Discontinued Operations  
No significant change.

NOTE 5 Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans  
No significant change.

B. Debt Restructuring  
No significant change.

C. Reverse Mortgages  
No significant change.

D. Loan-Backed Securities

(1) Prepayment assumptions for mortgage-backed/loan-backed securities were obtained from independent third party pricing services or internal estimates.

(2) At June 30, 2020, the Company did not have any securities within the scope of SSAP No 43R, Revised Statutory Accounting for Loan-backed and Structured Securities, with a recognized other-than-temporary impairment due to the intent to sell or an inability or lack of intent to retain the security for a period of time sufficient to recover the amortized cost basis.

(3) At June 30, 2020, the Company did not hold any loan-backed and structured securities with a recognized credit-related other-than-temporary impairment.

(4) There are no impaired securities for which an other-than-temporary impairment has not been recognized in earnings as a realized loss.

(5) All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether an other-than-temporary impairment should be recognized. As of June 30, 2020, the Company believes it has the intent and ability to hold securities long enough to allow the cost basis of these securities to be recovered. Although the investment securities above did not meet management’s criteria for other-than-temporary impairment at this time, it is possible that future events or information could cause them to conclude that declines in value are other-than-temporary.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions  
The Company has no repurchase agreements or securities lending transactions.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing  
The Company has no repurchase agreements transactions accounted for as secured borrowing.

Total liabilities at fair value	\$ -	\$ -	\$ -	\$ -	\$ -

NOTES TO FINANCIAL STATEMENTS

- (2) There were no Level 3 securities for period ending June 30, 2020.
- (3) Transfer between levels, if any, are recognized at the beginning of the reporting period.
- (4) The market values of equity and debt securities are obtained by the Securities Valuation Office of the NAIC and/or various pricing services. There has been no change in the valuation techniques and related inputs.
- (5) The Company does not own any derivative securities.

B. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability. A fair value hierarchy is used to determine fair value based on a hypothetical transaction at the measurement date from the perspective of a market participant. An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation. The input levels are defined as follows:

Level 1 - Unadjusted quoted prices in active markets for identical assets or liabilities. The Company defines active markets based on average trading volume for equity securities. The size of the bid/ask spread is used as an indicator of market activity for fixed maturity securities.

Level 2 - Quoted prices in markets that are not active or inputs that are observable directly or indirectly. Level 2 inputs include quoted prices for similar assets or liabilities other than quoted prices in Level 1; quoted prices in markets that are not active; or other inputs that are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the asset or liability. Level 3 assets and liabilities include financial instruments whose values are determined using pricing models and third-party evaluation, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

The Company has evaluated the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy level based upon trading activity and the observability of market inputs. Based on the results of this evaluation and investment class analysis, each price was classified into Level 1, 2, or 3.

There are some equity and fixed income securities whose market price is obtained from the Securities Valuation Office (SVO) of the National Association of Insurance Commissioners. For those securities that are not priced by the SVO, the price is obtained from independent pricing services.

The pricing service utilizes market quotations for fixed maturity securities that have quoted prices in active markets. Since fixed maturities generally do not trade on a daily basis, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include available relevant market information, benchmark curves, benchmarking of like securities, sector groupings and matrix pricing. Additionally, the pricing service uses an Option Adjusted Spread model to develop prepayment and interest rate scenarios.

The pricing service evaluates each asset class based on relevant market information, relevant credit information, perceived market movements and sector news. The market inputs utilized in the pricing evaluation, listed in the approximate order of priority, include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, reference data, and economic events. The extent of the use of each market input depends on the asset class and the market conditions. Depending on the security, the priority of the use of inputs may change or some market inputs may not be relevant. For some securities additional inputs may be necessary.

The Company has reviewed the inputs and methodology used by the pricing service and the techniques applied by the pricing service to produce quotes that represent the fair value of a specific security. The review of the pricing service's methodology confirms the service is utilizing information from organized transactions or a technique that represents a market participant's assumptions. The Company does not adjust quotes received by the pricing service.

The pricing service utilized by the Company has indicated that they will only produce an estimate of fair value if there is objectively verifiable information available. If the pricing service discontinues pricing an investment, the Company would be required to produce an estimate of fair value using some of the same methodologies as the pricing service, but would have to make assumptions for market-based inputs that are unavailable due to market conditions.

The fair value estimates of most fixed maturity investments including municipal bonds are based on observable market information rather than market quotes. Accordingly, the estimates of fair value for such fixed maturities provided by the pricing service are included in the amount disclosed in Level 2 of the hierarchy.

The Company has no Level 3 securities for the period ending March 31, 2020. However, for any fixed securities that have characteristics that make them unsuitable for matrix pricing, a quote from a broker (typically a market maker) would be obtained. Due to the disclaimers on these quotes that indicate that the price is indicative only, the Company would include these fair value estimates in Level 3. Also, since, the pricing of certain private placement debt includes significant non-observable inputs, the internally determined credit rating of the security and an externally provided credit spread, these securities would also be classified in Level 3.

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall. The table below reflects the fair values and admitted values of all admitted assets that are financial instruments. The fair values are also categorized into the three-level fair value hierarchy as described above in the Note 20A.

Type of Financial	Aggregate	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value	Not Practicable
Bonds	\$ 8,342,039	\$ 8,110,772		\$ 8,342,039			

- D. Not Practicable to Estimate Fair Value  
As of June 30, 2020, there were no financial instruments for which it is not practicable for the Company to estimate the fair value.
- E. Investments measured using Net Asset Value  
The Company had no investments measured using Net Asset Value.

NOTE 21 Other Items

A. Unusual or Infrequent Items  
On March 11, 2020, the World Health Organization formally declared the outbreak of the novel coronavirus COVID-19 to be a pandemic. The spread of COVID-19 has caused illness, quarantines, cancellation of events and travel, business and school shutdowns, reduction in business activity, widespread unemployment, and overall economic and financial market instability. The wide-ranging social, economic and financial consequences of the COVID-19 pandemic and the possible effects of ongoing and future governmental action in response to COVID-19 compound this uncertainty.

Through the second quarter of 2020, the American National Family of Companies continues to be fully operational with the majority of our employees working remotely. We continue to monitor developments related to the COVID-19 pandemic to assess its impact on our business; however, due to the evolving and highly uncertain nature of this event, it currently is not possible to estimate with reasonable confidence the ultimate direct and indirect impact of COVID-19 on our business, results of operations, financial condition, or liquidity. To date, COVID-19 has impacted us most notably with economic uncertainty and volatility in the financial markets in which we invest and with the diminished ability of certain of our clients and borrowers to make timely payments to us. This has resulted in our taking protective measures to mitigate the impact of COVID-19 on performance and increase liquidity should a need arise.

We are monitoring our liquidity needs closely. In the second quarter of 2020, ANICO, and affiliates, deferred salary merit increases.

We issued a 15% policy credit for our personal and commercial auto policyholders based on their April and May premiums, which amounted to approximately \$0.8 million. Additionally, as a result of the impacts of COVID-19, state insurance departments across the country had issued regulations that required us not to cancel policies for non-payment for varying amounts of time but generally for at least 90-day periods which began in March and early April 2020. The cancellation and grace periods have been lifted in most states. At this time, however, our liquidity requirements have been and are expected to continue to be met by funds from operations.

## NOTES TO FINANCIAL STATEMENTS

**NOTE 22 Events Subsequent**

On July 1, 2020, the upstream indirect parent company, American National Insurance Company (“ANICO”) completed its previously announced holding company reorganization pursuant to the Agreement and Plan of Merger dated February 11, 2020 (the “Reorganization Agreement”), among ANICO, American National Group, Inc., a Delaware corporation (“ANAT”), and AN MergerCo, Inc., a Texas corporation (“MergerCo”). The Reorganization Agreement provided for the merger of American National with and into MergerCo (the “Merger”), with ANICO surviving the Merger as a wholly owned subsidiary of ANAT, and the automatic conversion of each share of the common stock, par value \$1.00 per share, of ANICO issued and outstanding immediately prior to the effective time of the Merger (“ANICO Stock”), into one duly issued, fully paid and non-assessable share of the common stock, par value \$0.01 per share, of ANAT (“ANAT Stock”) (collectively with the other transactions contemplated by the Reorganization Agreement, the “Reorganization”).

As a result of the Reorganization, American National Group, Inc. became the publicly held company under the same ticker symbol “ANAT” on the NASDAQ exchange as previously used by American National Insurance Company. The directors and officers of ANICO just prior to the reorganization are now serving as directors and officers of ANAT. There is no change in the ultimate ownership of the organization and business operations will continue from our current office locations and companies. This reorganization will have no effect on our agents or policyholders.

**NOTE 23 Reinsurance**

No significant change.

**NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination**

The Company has no retrospectively rated contracts or contracts subject to redetermination.

**NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses**

- A. Incurred losses and loss adjustment expenses attributed to insured events of prior years have decreased by \$319,000 in 2020. This change is the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims and such adjustments are included in current operations.

The Company (“UFF”) and Farm Family Casualty (“FFC”) currently pool their underwriting results – 98% to FFC and 2% to UFF. Historically, the Incurred But Not Reported (“IBNR”) loss adjustment reserves (LAE) have been calculated based on the total pooled business, and then the direct LAE IBNR was allocated to each Company using a pooled percentage.

In May 2020, the LAE IBNR calculation was changed to reflect each Company’s direct business. This results in an increase in the direct LAE ratio, and a corresponding increase in the ceded LAE ratio. Without this change, the Company’s direct LAE ratio as of June 30, 2020 would have been 6.6%, as compared to the reported direct LAE ratio of 20.3%. There is no impact to either Company’s net income, as the results are pooled.

- B. There were no significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses.
